### ABOUT ME

Senior analytics engineer with remote work experience, skilled in transforming raw data into strategic insights. Ready to take on new challenges, making data clear and actionable for effective decision-making !

### EXPERIENCE

#### ENTOBEL | Insect Farming | Vietnam Business Intelligence Manager | January 2023 - Present

- Established data-driven culture in a non-digital environment, building integrated analytics infrastructure and becoming the organization's data authority
- Optimized insect feed strategies through data analysis, identifying cost-effective feed formulations that reduced production costs while maintaining quality standards
- Onboarded and trained 2 junior data analysts to work effectively across our multi-departments

#### COGASTRO | Mobile application | Lithuania Analytic Engineer (freelance) | December 2021 - December 2022

- Built DBT model from scratch, enabling automated data pipelines and production dashboards for agricultural technology clients
- Implemented real-time data visualization using Cube.js and React, providing live production monitoring capabilities
- Ensured data solutions aligned with our agricultural stakeholders. Bridged and ensued the requirements feasibilities

#### BRICOPRIVE | E-commerce | France Data Analyst | January 2019 - December 2021

- Analyzed promotional campaign effectiveness across customer segments, optimizing discount strategies based on conversion and retention data
- Conducted customer churn analysis and segmentation, developing actionable insights to improve customer lifetime value and retention rates
- Created interactive sunburst visualizations from Firebase Analytics data, revealing complex user navigation patterns

### EDUCATION

#### Master of Science Supply-Chain And Lean Management Toulouse Business School | September 2016 - December 2017

Specialized program in supply chain optimization and lean management principles

#### Master of Agriculture - Agronomy - Feed/Food Processing INP Purpan | September 2010 - December 2015

Agricultural engineering program with 18 months international professional experience
